

## Abraham Lincoln, Vol. 1 (Classic Reprint)

One who would take in the grandeur and sublimity of a great mountain must look at it from afar, so that its individual features are swallowed up in the majestic whole. The same rule prevails proximately with respect to a mental picture of a great man or an important event. The senses are charmed by the exciting and dramatic in human affairs as well as by the sublime and beautiful in nature. But much that is valuable to contemplate in the life of Abraham Lincoln would be lost if consideration were given alone to the events that exhibited him at the height of his career and amid the stirring scenes of the war for the Union which he brought to a successful conclusion and signalized, in the end, by that last full measure of devotion, eulogized in his Gettysburg address. He was never in personal appearance or bearing a dramatic figure at any period of his career, and after his elevation to the presidency he took care to avoid the pomp and circumstance usually associated with greatness. But in great mental and moral attributes, and in that something that makes exceptional men sufficient unto themselves under every stress and in every crisis, he was a giant among men, towering above his fellows as some great mountain towers above the foothills that surround and guard its base. These great qualities, and the dramatic and tragic events which exhibited them during the closing years of his life, must not be lost sight of if we would visualize the majestic outline that his career presents to history.
