

Mengzi: With Selections from Traditional Commentaries (Hackett Classics)

Bryan Van Norden's new translation of the Mengzi (Mencius) is accurate, philosophically nuanced, and fluent. Accompanied by selected passages from the classic commentary of Zhu Xi—one of the most influential and insightful interpreters of Confucianism—this edition provides readers with a parallel to the Chinese practice of reading a classic text alongside traditional commentaries. Also included are an Introduction that situates Mengzi and Zhu Xi in their intellectual and social contexts; a glossary of names, places and important terms; a selected bibliography; and an index.
