

## Hells End

Rebellion, war and survival. Loves a bitch. Hellscape, Book 1 Tucks a Gutter, one of a gang of violent orphans running level thirty-six of Hells End, the solar systems outermost space station. There's only one way out of this brotherhood of blood-grow up and be killed and eaten by other Gutters. Tuck barely escapes his death sentence, only to fall prey to the powerful Larisian family. Rescue from a Larisian whorehouse never happens, but rescued he is, and by Gov soldiers no less. Alone among the enemy, Tuck trusts only one person—the man who risked everything to pluck him to safety. Ivans a soldier. No more, no less. But the disquieting things he learns about the Government's plans for the Gutter kid have him doing the one thing a soldier shouldn't do. Think about doing what's right instead of what he's told. All for a guy he can't get out of his head. Getting involved in a rebellion that might get them killed is a problem. Falling in love? That's a disaster in the making. Warning: This book contains rebels, spies, soldiers, bad guys, love, sex, betrayal, fights to the death, and robot spiders. Really.
