

# How I Recovered from Stress, Anxiety, Panic Attacks and Agoraphobia Without Taking a Single Pill

My name is Andrew Thomas and I know exactly what you are experiencing. Stress, depression, panic attacks and anxiety messed up my life for years. I know first hand how stress can make you feel - helpless, lonely, isolated and afraid. For a while I was living a nightmare. It got so bad that at one point I thought I was going mad. I used to be afraid to leave my house even to go to the shops just a hundred yards away. I used to wake from nightmares in the middle of each night, soaking wet with sweat - terrified. That was the low point. Today I am completely cured and I did not take one pill, tablet or potion to do it! I am happy, relaxed and I enjoy life to the full. I have even run a half marathon charity race in each of the last five years. This book shows you how to apply the simple techniques that I used in my recovery and I totally believe that you too can make yourself well again.
