

The First Chapter of Norwegian Immigration, to Its Causes and Results: With an Introduction on the Services Rendered by the Scandinavians to the World and to America (Classic Reprint)

Excerpt from The First Chapter of Norwegian Immigration, to Its Causes and Results: With an Introduction on the Services Rendered by the Scandinavians to the World and to America. The reader will also find a number of repetitions. The author would have been pleased to eliminate many of these, but as the book is written mainly for plain people it was thought better to repeat some of the things that had already been told than to be continually referring the reader to some other part of the volume. The aim has been to give as full an account as possible of each of the six separate settlements, and as will be seen the same persons sometimes appear among the pioneers of more than one settlement. It seemed better to restate some of the facts in regard to such persons than to refer the reader back to other pages of the book. Doubtless there are many names omitted, that ought to have been mentioned, and some of those introduced may have been given more prominence than they are entitled to; but the reason for this is the author's inability to see with sufficient clearness through the veil of time that covers the first epoch of emigration from Norway.
