

Out of the Woods

What if you made a terrible mistake? One that not only ruined your own life, but harmed your friends and family, and even your community? How could you ever recover? How would you live with the guilt? Jackson hid. Deep in the forest, never intending to re-join society. Until the day Harrison, a geeky botanist, bumbles into his woods hunting for mushrooms. When Harrison needs Jackson's help, the two men quickly form a fast friendship. As their relationship grows more serious, they each see in the other a chance for real happiness. But Jackson's past mistakes are not easily overcome, and it will take all of Harrison's love and patience for them to find a happy ending.
