

Verses Nature: The Making Of

In the beginning was the thought of it. This is my answer to that thought. Passion and peril. Plain language (no broom-up-me-arse-ish). Add: the central challenge of form(s). Like words and their echoes, genres mingle, necessarily. Slutty beasts. Youll love em. Sex? Yes. Loads. Mind-blowing. But differently. These are some of the main ingredients of Verses Nature; the story of Tatar (Carmina thinks he stinks of Male Pig) and Carmina (Tatar can smell when a womans on heat), locked in an intellectual-erotic Kampf that will end tragically if she loves him as much as he loves her. Sex. Power. God. Perversion. Or is it: innocence? The Making Of takes you inside the creative authorship of this ground-breaking, ruthless and memorable series of experimental novels. If you are passionate about exceptional fiction and are dying to know how it gets written, then stop whatever it is you are reading right now and start reading this.
